

KBMO GI Supportive Formulas

Candida	
Candidase Pro™	Candidase® Pro is a complete protocol for gentle intestinal detoxification.* The enzymes in this formula help break down yeast cell walls and digest the proteins inside.
Critical Digestion™	Critical Digestion® combines the highest-potency digestive enzymes with guaranteed-potency probiotics. Relieves occasional gas, bloating and indigestion, and increases energy and nutrient absorption.
Zonulin/Occudin	
GI+ Biome™	Contains ButyraGen® (with tributyrin and fiber), Lipase Thera-blend®, PepZinGI® zinc carnosine and organic golden kiwi. Supports the epithelial lining's integrity, reduces intestinal inflammation.
Critical Digestion™	Critical Digestion® combines the highest-potency digestive enzymes with guaranteed-potency probiotics. Relieves occasional gas, bloating and indigestion, and increases energy and nutrient absorption.
Lipopolysaccharides (LPS)	
GI+ Biome™	Contains ButyraGen® (with tributyrin and fiber), Lipase Thera-blend®, PepZinGI® zinc carnosine and organic golden kiwi. Supports the epithelial lining's integrity, reduces intestinal inflammation.
Critical Digestion™	Critical Digestion® combines the highest-potency digestive enzymes with guaranteed-potency probiotics. Relieves occasional gas, bloating and indigestion, and increases energy and nutrient absorption.
Food Sensitivity Options	
Intolerance Complex™	Intolerance Complex® includes higher-potency enzymes that offer support for digestive sensitivities, particularly FODMAPS, gluten, dairy, legumes, vegetables and fruit.
Lypo Optimize™	Lypo Optimize™ is scientifically formulated for fat digestion and gallbladder support. It helps relieve indigestion associated with meals higher in dietary fat.
Healthy Inflammatory Support Option	
MyoMend™	MyoMend® is an advanced blend of proteolytic enzymes to support. It helps break down damaged proteins to speed recovery and promote flexibility and mobility.
PEA+™	With ultra-micronized PEA (naturally derived from safflower seeds) and Meriva® curcumin phytosome. (PEA)+ relieves stress, soreness and discomfort associated with occasional pain, stiffness and compromised tissue function.
